the computer as quickly as possible so we can start tracking this vital project. I hope that this omission on Selene also kept me informed on what needed to be done, either around the cabin or for Amanda. Morning after morning, she would hand me a note when I met her. I was always glad of an excuse to see more of Amanda, but I was puzzled by the notes..gracious, tasteful, and posh. At least from here in the second ring it seemed endless. It had a seating.green. It was the smoke detector. The smoke was coming from the lab..eyes head-on. Their expression seemed oddly out of character with the monologue she'd just delivered..116.'She leaned forward and touched the wound with her hand. Tears started in her eyes. It wasn't worth an argument..I didn't say anything.."It turns," Lang said quietly. Otherwise, you might as well cut your throat. You might as well not even be born, because life is an inevitably fatal struggle to survive..Novelist and critic Joanna Russ teaches English at the University of Washington. When our starting book reviewer, Algis Budrys, tires, our favorite relief reviewer is Ms. Russ. A sale of the size property they were interested in would bring a big commission, too big for me to risk seeming preoccupied or impatient. I kept smiling, though inside I felt as Selene looked when she forced herself to walk slowly beside me. I even took them back to the cabletrain, but I had no sooner seen them off than I was flinging myself back into the runabout and driving up to Amanda's cabin..to send him into a state of fugue in which conversation in the linear sense became next to impossible. They made it sound like kinky fun. Over the past several years there had been a rush to the analysts' couches by people hoping to find

another personality or two living inside their heads with them. I even knew perfectly normal people so taken with the idea that they resorted to aping the signs of dissociation..I've got to admit, though, that before I yelled my nay I had a bad moment. There was nothing phoney about his handshake, and he knew it.."Am I a proletarian or an oppressor?". "First," said Lea, "who is standing just behind your left shoulder?". Zorphwar runs at A-I priority on our machine, which means that any other use of the machine is halted while Zorphwar computations are completed. As you may have noticed, it took approximately forty minutes for the machine to compute the paths through the galaxy of those torpedoes, to determine their impact points, and to calculate die radius of destruction of each burst. Normally such overloads are handled by adjusting the work load in the Computer Center. However, at three thirty yesterday, the Center was in the midst of printing the paychecks for the entire Computer Products Division. The little delay our game occasioned upset the very tight schedule for that operation. As a result, all checks from R through Z were not printed on time and failed to make the courier flight to the West Coast That is the reason your paycheck was not delivered to you today. Regrettably, it is also the reason that Division President Tailing and Corporation Comptroller Westland were not paid this week. While you are more familiar than I am with the personalities at Headquarters, I ?aspect that both of these gentlemen like to receive their paychecks. I trust that, if any investigations come out of this little incident, you will do your best to emphasize the fact that the Zorphwar program has already been modified to permit the launching of no more than tea doomsday torpedoes in one attack.
