But since Swyley himself didn't understand how he did it, he was unable to explain it to the systems programmers, who had hoped to duplicate his feats with their image-analysis programs. That had been when the "-sits" and the "-zoologists" began their endless batteries of fruitless tests. She brooded about it for a week, becoming short-tempered and almost unapproachable. Then she asked Crawford to join her in the private shelter. It was the first time she had asked any of the other four. They lay in each other's arms for an hour, and Lang quietly sobbed on his chest. Crawford was proud that she had chosen him for her companion when she could no longer maintain her tough, competent show of strength. She was beautiful enough, certainly, to have been someone he ought to recognize, but if he had seen her on TV, he didn't remember. In a way she seemed almost too beautiful to be a noted personality, since there is usually something a little idiosyncratic about each of them, so they can be told apart.
