

## THE DIGITAL CITY AND MEDIATED URBAN ECOLOGIES

"We use the breather valves from our old suits," McKillian said. "Either the plants that grow valves." We had our first formal meeting with the Chinese yesterday, and we've already made our first official decision." He glanced at the replica of the star-robot probe again. "SP3 now has a name. It has been named after a goddess of Chinese mythology whom we have adopted as a fitting patroness: Kuan-yin--the goddess who brings children. Let us hope that she watches over her children well in the years to come." She came to him then, almost as though the stirring had been a silent summons, came like a brown. Ed took out his ID folder, took his license from the folder, tickled the edge of the endorsement sticker from the back of the license with his fingernail, and offered it to Barry..sensitized to her tongue, rough as a cat's..If clones can be produced wholesale, a biologist can have a whole group of animals with identical genetic equipment; a set of ten thousand identical-twin mice, let us say. There are many animal experiments that can be conducted with the hope of more useful results if the question of genetic variation could be eliminated..She touched the small of her back. "A kind of short circuit Worse than bending over is twisting sideways..His first elation fizzled out and he was left with his usual flattened sense of personal inconsequence. Tucking the license into his ID folder, he felt like a complete charlatan, a nobody pretending to be a somebody. If he'd scored in the first percentile, he'd have been issued this license the same as if he'd scored in the tenth. And he knew with a priori certainty that he hadn't done that well. The most he'd hoped for was another seven points, just enough to top him over the edge, into the sixth percentile. Instead he'd had dumb luck..46.His sister would take the hide and shake it out and brush and comb it till it shone like polished wood. The site had been chosen because it was a smooth area, allowing easy access up a gentle slope to the flat plains of the Tharsis Plateau, while at the same time only a kilometer from the valley floor. No one could agree which area was most worthy of study: plains or canyon. So this site had been chosen as a compromise. What it meant was that the exploring parties had to either climb up or go down, because there wasn't a damn thing worth seeing near the camp. Even the exposed layering and its areological records could not be seen without a half-kilometer crawler ride up to the point where Crawford had climbed to watch the sunrise..stay where you are.
