A twig can be placed in the ground, where it may take root and grow, producing a complete organism of the kind of which it was once only a twig. Or the twig can be grafted to the branch of another tree (of a different variety

even), where it can grow and flourish. In either case, it is an organism with a single parent, and sex has had nothing to do with its making. Colman stood on the gravel bank of the stream and watched as a bewildered major was led from the enemy bunker, followed by his numb staff, who joined the gaggle of disarmed defenders being herded together under the watchful eyes of smirking Third Platoon guards. The primary objective had been to take prisoners and obtain intelligence, and the crop had yielded two captains in addition to the major, a first and a second lieutenant, a chief warrant officer, a sergeant major, two sergeants, and over a dozen enlisted men. Moreover, the call-sign lists and maps had been seized intact, along with invaluable communications and weapons-control equipment. Not a bad haul at all, Colman reflected with satisfaction. "That's fine, but there is an even more important order of business. We have to go out to the dome and find out what the hell caused the blowout. The damn thing should not have blown; it's the first of its type to do so. And from the bottom. But it did blow, and about your job, Barry? By using the fuel we would have ferried down to you for takeoff, we can make a faster orbit down toward Venus. The departure date for that orbit is seven days away. We'll rendezvous with a drone capsule full of supplies we hadn't counted on." And besides, Lang thought to herself, it's much more dramatic. Plunging sunward on the chancy cometary orbit, their pantries stripped bare, heading for the fateful rendezvous . . . ward, got up in time to see the fiberglass ropes on the side nearest him snap free from the steel spikes anchoring the dome to the rock. The dome now looked like some fantastic Christmas ornament, filled with snowflakes and the Sashing red and blue lights of the emergency alarms. The top of the dome heaved over away from him, and the floor raised itself high in the air, held down by the unbroken anchors on the side farthest from him. There was a gush of snow and dust; then the floor settled slowly back to the ground. There was no motion now but the leisurely folding of the depressurized dome roof as it settled over the structures inside. contorted in pain. He grinned with pleasure. "Thanks.
